GETTING STARTED

Before you Begin the Electronic EDI ...

1. **Review the EDI questions** and ensure that you feel reasonably comfortable with the questions that will be asked about each student. If you feel unable to answer any specific questions on a child you may save your completed e-EDI work and gather any additional information needed to complete a child's questionnaire.
2. **Get your login and password.** You will be provided with a login name and password from your local coordinator.
3. **Have your class lists available.** Match Local ID's, gender, and birth dates to confirm that you are entering information for the correct student.
4. **Ensure that all the children in your class(es) have a local ID and are included on your list.** Missing students will need to be added.
5. **Review any background,** report cards, student file, Kindergarten Registration, the EDI Guide or other information that might help you to answer the questions for each student.
6. **If applicable, list students whose parents/guardians have declined permission** to participate. Letters will be sent to parents ahead of the scheduled time for EDI data entry and you can take the appropriate measures during your e-EDI data entry.
7. **Good luck and thank you!** Call or email if you have questions.

If you have any additional comments about this child and her/his readiness for school, list them below. *** Please do not use children's name in any comments. ***

Section E asks questions about the child's preschool experiences. This information will be correlated with children's EDI scores to see if there are significant correlations between a child's preschool experiences and

their readiness to learn. Answer these questions about the child preschool experiences to the best of your knowledge. Mark all selections that apply. In some school boards this information is available through the student's files, OSR, or Kindergarten Registration. Availability of this information will be reviewed for your board during teacher training sessions.

- **STEP 1:** Answer these questions to the best of your knowledge. Use data from the students file if available.
- **STEP 2:** Use the space at the bottom of Section E for additional comments about the child, or feedback about the e-EDI process, layout, or question wording.
- **STEP 3:** Click "Save EDI" at the top or bottom of the screen to save your work.
- **Step 4:** Once you have completed section E you are ready to check for completeness and submit the EDI to McMaster. See page 23 for instructions on checking for completeness and submitting the EDIs.

NOTE:

The system will not recognize it as complete until your answers are in agreement. For example, if you say "yes" to question 2 you will have to select "yes" for at least one of the types of childcare.

If you have a lot of “don’t know” answers, put this child’s e-EDI aside and observe the child for a few more days. Do not “test” the child, but rather watch him in his daily activities. Then return to the child’s e-EDI to provide more detailed answers.

Make sure you Check for Completeness and Finish/Submit every questionnaire individually.

It also helps keep things organized! Completion of this page is optional, but important.

CONGRATULATIONS!

You have completed the EDI! Your completed surveys will be automatically collected by the e-EDI administrators and will be joined together with the EDI surveys completed by your colleagues.

Thank you for your hard work and the contribution you have made to improving children's developmental health at school entry.

PART V – QUICK E-EDI TIPS FOR TEACHERS

1. When Contacting the e-EDI Administrator

The best way for us to find you in the e-EDI system is with a child's EDI ID or your password (teacher's EDI ID). You could also give us your site, school name, and teacher name

2. Teachers are unable to:

- Add or change Local ID after it is entered
 - If you forget the Local ID when adding a student, don't add another student – complete the EDI, and tell the administrator what Local ID to add
- Delete a student
 - As soon as you hit "Add Student" the student will appear at the end of your class list (EDI ID is automatically generated). The only reason you would need to *delete* a student is if you added an extra questionnaire in error, or if the child never existed in your school. If they were ever in your class and you are not completing the EDI for them, you have to mark the appropriate response in the "Student Status" field in Demographics
- Unlock a questionnaire
 - Ensure you are ready before you "Finish/Submit to McMaster" – once it's locked, you can't make any changes (though you can still request that an administrator unlock it)

3. When you're done, make sure every questionnaire in your class is LOCKED

- Don't forget to "Check for Completeness" & "Finish/Submit" every questionnaire!
- If a child: is no longer in your class/school, has no consent (if consent is required), etc, choose the appropriate answer for Student Status (in Demographics), then Finish/Submit

4. Make sure to save continuously as you work

- After 15 minutes of inactivity, you will be logged off

5. There is no "Send" button for the Teacher Participation form

- If you hit the "Update" button, the information will automatically get sent to McMaster.

PART VI - CONTACT

If you have any questions, comments, or feedback regarding the electronic EDI, please contact McMaster at: rasope@mcmaster.ca
