a population-based measure for communities

# Early Development Instrument Training Resources

Ontario  
2022/2023

## EDI Training Resources

The Early Development Instrument (EDI) is a questionnaire completed by kindergarten teachers measuring children's ability to meet age-appropriate developmental expectations in five key domains.

The Offord Centre provides a number of resources to help teachers complete their EDI questionnaires more efficiently and accurately. Below are a list of resources with a link to find them on our website.

### EDI Guide

The EDI Guide provides all EDI questions, most with explanatory notes or detailed rating descriptions for each response option.

### e-EDI Teacher's Manual

The e-EDI Teacher's Manual provides step-by-step instructions on how to use the electronic EDI system to complete the EDI questionnaires for your class.

### EDI Training Video

The EDI training video visually guides teachers through the process of completing the electronic EDI questionnaires and provides tips for completing them in the most efficient way.

### EDI and the Early Years Video

The Offord Centre created a whiteboard video describing the EDI and explaining its importance.

### Teacher Training Presentation

A Power Point presentation created by the Offord Centre used for "Train the Trainer" webinars.
